

DEPARTMENT OF APEX INSTITUTE OF TECHNOLOGY

PROJECT PROPOSAL

1. Project Title: -

Fee Challan Generator

2. Project Scope: - (Max 500 words)

The project is a web-based application where the user can generate Challan to pay the fee. The system automates the conventional process of generating Challan by visiting the college website. The system would be having two logins: Admin and User Login. Admin can view student details and can even add or update things in their account.

3. Requirements: -

➤ Hardware Requirements

1. N/A

➤ Software Requirements

1. Visual Studio
2. Sql
3. Xamp

STUDENTS DETAILS

Name	UID	Signature
Yash Jain	19BCS3553	
Shishir Kumar Verma	19BCS3560	
Gunit Bedi	19BCS3552	
Tanvi Dhimaan	19BCS3546	
Patibandala Vamsi Mohan	19BCS3583	

APPROVAL AND AUTHORITY TO PROCEED

We approve the project as described above, and authorize the team to proceed.
